

**Regional School District #17  
Electronic Device Permission Slip**

HKMS Administration and Staff encourage all students to keep their electronic devices at home. If parents and/or staff agree that having a device is necessary, this form must be filled out by all parties and submitted to the office prior to the electronic device being brought to school. Copies of this form will be available on the district website.

***\*\*By signing this consent, I deem it necessary to give my child permission to have an electronic device in their locker during school hours. I incur liability for the device being lost, stolen, or damaged. I understand that if my child is seen with their device during the school day, it will be confiscated and I will have to come to school to pick it up. In addition, my child will receive a detention for violating school policy. If my child continues to violate this policy, further disciplinary action will be taken and the administration reserves the right to deny this permission at that time.***
