March 2019

Dear Health Care Provider,

We have created the attached district specific medication authorization form for our eighth grade students who will be traveling to Washington D.C. on an overnight trip on May 1-3, 2019.

This form was created in an effort to streamline the medication paperwork process that is required to administer medication to students on this fieldtrip. **Please note this is not a standing order medication form. We have simply included the medication that is frequently ordered in an effort to prevent you from having to complete a separate form for each medication that you intend to order for your patient, our student.** It meets all the requirements as outlined in the state medication regulations as well as our board of education medication policy. The form is intended to be utilized for the May 1-3, 2019 time frame only. We have included a self-administration of emergency medication authorization section that requires your signature as well.

Our hope is that you will find this one form adequate and helpful to meet all the medication needs for the students attending this field trip. If you have any questions or concerns please feel free to contact Nicole Tucker RN: (860)663-1241. Thanks in advance for your cooperation and use of this form.

Sincerely,

Nicole Tucker
