

The follow instructions are used to configure your RSD17 email account to your iOS device. These settings will work for your iPhone or iPad.

1. On your device touch Settings > Mail, Contacts, Calendars > Add Account > Microsoft Exchange.
2. Enter the information in the spaces below, then hit Next:

•••• AT&T 10:24 AM

Cancel Exchange

Email email@company.com

Password Required

Description My Exchange Account

Exchange Device ID
PL7HFG75ET0ST93OIKS2GI5NLG

3. Your device will now try to find the server. Once your device locates the server it will ask for you to enter in the server information which can be found below

4. Finally you will need to choose which items you would like to synchronize. When finished click Save to finalize setting up your RSD17 webmail.
